FOR IMMEDIATE RELEASE

Final Paving – Sumner Avenue
From Oakland Street to Firglade Avenue, Springfield, MA

The Springfield Water and Sewer Commission (SWSC) is partnering with Columbia Gas of Massachusetts (CMA) to complete final paving of Sumner Avenue from Oakland Street to Firglade Avenue. Work is scheduled to begin the week of November 3, 2014, and is anticipated to take approximately two weeks to complete. Typical work hours are Monday through Friday from 7:00AM to 4:00PM. Evening and weekend work may be necessary at various times during the project. The work will be performed by private contractors on behalf of the Springfield Water and Sewer Commission and Columbia Gas of Massachusetts.

Both the Springfield Water and Sewer Commission and Columbia Gas of Massachusetts recently completed infrastructure improvement projects on Sumner Avenue. Partnering to complete the final paving following these projects increases the efficiency of the work and will provide a better finished product to residents.

Due to the nature of this work, changes to traffic patterns and traffic delays are expected. Traffic will be managed with posted traffic signs and police details. Drivers are advised to seek alternate routes when possible.

We appreciate the patience of drivers and residents while this work is being performed. Please contact the Springfield Water and Sewer Commission at 413-787-6206 or Columbia Gas of Massachusetts at 800-677-5052 with questions regarding this project.

END
