FOR IMMEDIATE RELEASE

State Street from Dwight Street to Main Street Reopened

The Springfield Water and Sewer Commission received a report of flooding on State Street earlier this afternoon. Commission crews identified the source as a water main break in the area of Willow Street, stabilized the area, and contained the water flow. At approximately 4:00pm, two lanes of State Street were reopened to traffic (one lane in each direction).

Repairs to the water main and roadway are ongoing. The Commission will update the public on an anticipated timeframe for repairs and additional traffic information as details become available.
