FOR IMMEDIATE RELEASE

Update on State Street Repairs

State Street from Dwight Street to Main Street Closed to Through Traffic Friday and Saturday

The Springfield Water and Sewer Commission received a report of flooding on State Street yesterday afternoon. Commission crews identified the source as a water main break in the area of Willow Street, stabilized the area, and contained the water flow. Two lanes of State Street were reopened to traffic (one lane in each direction) at approximately 4:00pm yesterday.

The repair to the water main is complete. Other utilities such as telephone and electric are on site assessing their lines and making repairs as necessary. Once utility work is complete, the roadway will be repaired and paved. This work is expected to be complete by 5:00pm on Saturday.

State Street from Dwight Street to Main Street will be closed to through traffic on Friday and Saturday from 7:00am to 5:00pm for milling and paving. Traffic will be managed with posted signs and police details.

The Commission will continue to update the public with new information as repairs progress.
