FOR IMMEDIATE RELEASE

**Water Pipe Improvement Project and Traffic Information
Alden Street and Six Corners Intersection, Springfield MA**

On behalf of the Springfield Water and Sewer Commission, Baltazar Contractors Inc. will replace water pipes within Alden Street, from Hancock Street to Middlesex Street, and within the Six Corners intersection. Construction is scheduled to begin **August 21st, 2017 and continue through fall of 2017**. Typical construction hours are Monday through Friday from 7:00AM to 4:00PM.

This project will involve the installation of a new water main connection and approximately 4,100 linear feet of 12-inch water main replacement within Alden Street, stretching from the intersection with Hancock Street to Middlesex Street. This work is part of the Commission's *2017 Infrastructure Improvements - Water* capital improvement project. This water main work is being coordinated with Springfield College's ongoing construction on Alden Street between Wilbraham and Middlesex Streets.

Due to the nature of this work, changes to traffic patterns and traffic delays are expected during construction hours. During some phases of the water main work, Alden Street and portions of the Six Corners intersection will be reduced to a single-lane alternating traffic pattern. Local traffic and access will be managed with posted signs and police details. Drivers are advised to seek alternate routes. The
