Phone Number FAX _____ Email

I am requesting information on the availability of:

(Check all that apply) **Water Availability**

Sewer Availability

Plan Required - A plan showing the exact location of the parcel must be submitted with this request form. A block plan or GIS print is acceptable. It is preferred that the plan shows one adjacent cross street.

Please Note: Approval for water and/or sewer service is contingent upon site conditions, available water or sewer mains, and compliance with Commission design requirements.

The Commission makes no representations as to the capacity and pressures to meet the water demands for the above properties.

The Commission makes no representations as to the capacity or available depth to tie into the sanitary sewer system. The site engineer or contractor must perform their own investigation as to the depth, size, and material of the existing sanitary main within the street. Sanitary Sewer Services must be designed to meet the Commission's Rules and Regulations, Guidelines and Policies. Based upon the location of the proposed building and the location and depth of the available sewer, a grinder pump system may be required.

Application for water and/or sewer service may be made at the Commission's Operations Center located at 71 Colton St., Springfield, MA. Application fees must be paid at the time of application for water and/or sewer service. The remainder of fees due will be determined during the review of the service application. If there are any questions regarding this matter please contact the Springfield Water and Sewer Commission at (413) 452-1300.

Return this form by mail, fax, or email to SWSC Engineering and Technical Services, 250 M St. Ext. Agawam MA. FAX: 413-787-6269; EMAIL: lisa.berman@waterandsewer.org
