FOR IMMEDIATE RELEASE

Sewer Pipe Improvement Project

Wilbraham Road, between Winterset Drive and Cabinet Street, Springfield, MA

On behalf of the Springfield Water and Sewer Commission, National Water Main Cleaning Company and N&M Excavating will be performing sewer repairs and rehabilitation at Wilbraham Road between Winterset Drive and Cabinet Street in Springfield. Work on the project is expected to begin May 30th, 2023 and continue through June of 2023. Typical construction hours are Monday through Friday from 7:00AM to 4:00PM.

During construction hours, this section of Wilbraham Road will be reduced to a one lane alternating traffic pattern. Street side parking along this section of Wilbraham Road will also be restricted during construction. Access to abutting businesses and residences will be maintained. Pedestrian and vehicular traffic will be managed with posted signs and police details.

Sewer pipes in this section of Wilbraham Road date back to 1952 and are being replaced as part of the Commission's collection system asset management and maintenance program. Rehabilitation of sewer infrastructure is prioritized as part of this cleaning and assessment program to proactively plan maintenance and construction projects.

The Commission appreciates the patience of residents, businesses, pedestrians, and drivers while this important work is performed. Please contact the Springfield Water and Sewer Commission at 413-310-3501 with any questions regarding this project.
