**FOR IMMEDIATE RELEASE**

## **Sewer Pipe Improvement Project**

### **Spring Street between Worthington Street and Pearl Street, Springfield, MA**

On behalf of the Springfield Water and Sewer Commission, National Water Main Cleaning Company and AJ Virgilio Construction Inc. will be performing sewer repairs and rehabilitation at Spring Street between Worthington Street and Pearl Street. This work is expected to begin October 5, 2023, and continue through October. Typical construction hours are Monday through Friday from 7:00AM to 4:00PM.

During construction hours, this section of Spring Street will be reduced to one lane alternating traffic. Access to abutting properties will be maintained and local traffic will be managed with posted signs and police details.

Sewer pipes in this section of Spring Street date back to 1899 and are being repaired as part of the Commission's collection system asset management and maintenance program. Through this cleaning and assessment program, the Commission prioritizes sewer repairs based on age and condition of the pipe and proactively plans maintenance and construction projects.

The Commission appreciates the patience of residents, businesses, pedestrians, and drivers while this important work is performed. Please contact the Springfield Water and Sewer Commission at 413-310-3501 with any questions regarding this project.
