FOR IMMEDIATE RELEASE

Westford Avenue Water Pipe Improvement Project

On behalf of the Springfield Water and Sewer Commission, Baltazar Contractors, Inc. will repair water pipes on Westford Avenue and a portion of Gunn Square. Construction is anticipated to start Thursday, May 14, 2026, and continue through November 2026. Typical work hours are 7:00 AM – 4:00 PM, weather dependent.

During construction there will be one-lane alternating traffic and pedestrian and vehicular traffic will be managed with posted signs and police details. Drivers are encouraged to seek alternate routes, if possible, to help avoid potential delays in the area. Throughout the duration of the project, on-street parking will be restricted in the construction zone. Access to abutting properties will be maintained.

This Water Pipe Improvement Project is being completed to modernize water infrastructure and improve service reliability and efficiency. The pipes being replaced on Westford Avenue and Gunn Square date back to 1918.

The Commission appreciates the patience of residents, businesses, pedestrians, and drivers while this important work is performed. Please contact the Springfield Water and Sewer Commission at 413-310-3501 with any questions regarding this project.

END
