FOR IMMEDIATE RELEASE

Federal Street Sewer Pipe Improvement Project

On behalf of the Springfield Water and Sewer Commission, Baltazar Contractors, Inc. will perform necessary sewer improvement repairs on Federal Street. Construction will begin Monday, September 28, 2026, and continue for approximately one week, weather dependent.

During the project, Federal Street will be closed between Worthington Street and Pearl Street. Detours will be in place, and traffic will be managed with posted signs, barricades, and police details. On-street parking in this section of Federal Street will also be restricted. This traffic pattern will remain in place for the duration of the project. Typical work hours are 7 AM–4 PM, weather permitting.

The sewer pipes on Federal Street date back to 1924 and were identified for repairs through a comprehensive assessment program. Construction is being completed as part of the Commission's annual Sewer Improvements Project to modernize sewer infrastructure and improve service reliability for residents.

The Commission appreciates the patience and cooperation of residents, businesses, pedestrians, and drivers while this important work is performed. Please contact the Springfield Water and Sewer Commission at 413-310-3501 with any questions.
